# DOING OUR PART TO SAVE THE PLANET

You now have a choice in who provides your electricity, how much you pay for it, and how clean it is. Desert Community Energy and Southern California Edison (SCE) encourage you to compare your choices and select the option that best suits you and your family.

For more information, call Desert Community Energy at (855) 357-9240 or visit [DesertCommunityEnergy.org](http://DesertCommunityEnergy.org), or call SCE at (800) 974-2356 or visit [SCE.com/cca](http://SCE.com/cca).

# Understanding your energy choices

Desert Community Energy (DCE) and Southern California Edison (SCE) worked together on this comparison of our common rates and the power sources we provide to help you decide which service and rates work best for you. This comparison illustrates the estimated electricity costs for a typical residential customer on the CARE rate within Desert Community Energy's service territory with an average monthly energy use of 564 kilowatt hours (kWh). If you are a customer on the FERA rate, please refer to the Joint Rate Comparison on the DCE and SCE websites. This comparison is based on Desert Community Energy rates approved by the Board of Directors and effective as of March 1, 2022. SCE rate options are based on rates effective June 1, 2022. Both Desert Community Energy and SCE's rates are subject to change. SCE's Green Rates for 50% and 100% of energy delivery are suspended for all new customers due to full subscription to approved Green Rate resources. SCE will maintain a waitlist for customers interested in participating in the Green Rate program, and as capacity becomes available, SCE will enroll customers on the Green Rate on a first-come, first-served basis.

DCE rates current as of March 1, 2022

**Generation Rate** reflects the cost of producing or purchasing electricity to power your home. This rate depends on usage, and will vary depending on your service provider and rate plan.

**SCE Delivery Rate** is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

**Surcharges** represent the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers and SCE customers that elect a Green Rate. The CRS is a surcharge to recover costs associated with power purchases made on behalf of customers, prior to a customer's switch to a CCA or SCE Green Rate. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.
